ABOUT THE BANK

Banking Designed for Growing Businesses

At SBM Bank India, we combine agile technology with deep banking expertise to help businesses navigate an increasingly dynamic and competitive marketplace. As customer expectations evolve and business models transform, we remain focused on delivering practical, innovative, and scalable banking solutions that empower enterprises to grow with confidence.

We understand the unique needs of our customer and offer solutions to simplify their everyday banking, streamline cash management, facilitate trade and cross-border transactions, and support them at every stage of their growth journey.

As India's first Universal Bank accredited by the RBI through its Wholly-Owned Subsidiary route, SBM Bank India commenced operations in India on December 1, 2018. Today, we serve customers through our network of branches across the country, supported by robust digital banking capabilities.

Our strength lies in our people, technology, and customer-centric approach. With a diverse team bringing together expertise in innovation, compliance, risk management, and operations, we deliver seamless banking experiences backed by strong governance and service excellence.

As part of the SBM Group, businesses can also benefit from our international network and experience across Asia and Africa, enabling smoother cross-border banking relationships and trade opportunities in key growth markets.

Whether it is managing daily transactions, optimizing working capital, facilitating collections and payments, or supporting expansion plans, SBM Bank India is committed to being a trusted banking partner for businesses seeking reliable, responsive, and future-ready financial solutions.
